Staying Safe Online

The internet can be a great tool to use.

I can use it to connect to friends + my peers via social media or texting.

I can browse the internet, learning new things, which can ++ also help me with home work.

I can watch videos + play games, which can be fun.

I can ++ also listen to music + watch my favorite shows or movies.

need to share this.

Social media can be a good place to share pictures or videos.

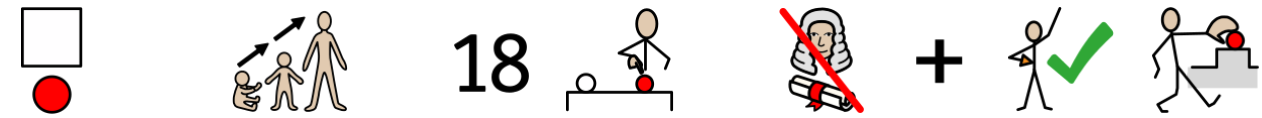
There are some pictures and videos I should not share.

If I am unsure of what I can share with my friends and

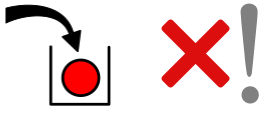
peers I can check with a trusted grown up.

I should never share pictures or videos or my private parts, or

anyone elses private parts.



Under the age of 18, this is illegal and I can get



into trouble.
